

## Intelligent Remote Indicator LED FCRI332

### Overview

---

- Advanced intelligent detection functionality
- 360° degree visible light
- Low profile design
- Ip 20 cover protection
- Backward compatible
- Tested and approved to EN 61000-6-3, EN 50130-4

### Description

---

Intelligent detectors forms several unique intelligent detection, programming and maintenance technologies. This range of detectors has been produced using the latest in manufacturing and design techniques, pushing out the boundaries of existing intelligent detector technology with its multitude of innovative features.

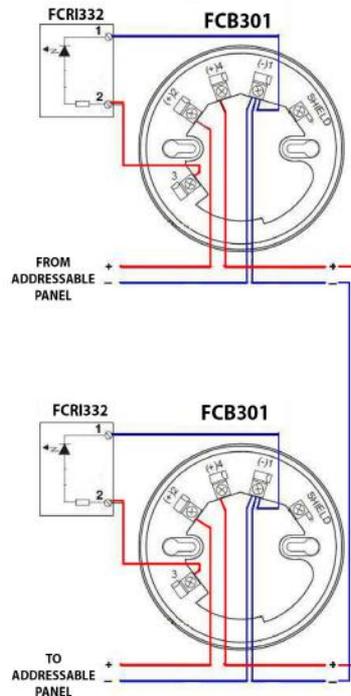

FCRI332 is a remote indicator LED which is co-operated with any detector. It is installed away from the detector and lights on in case when a detector is activated.

The advantage of using the FCRI332 is the decrease of the number of the zones which are necessary for the covering of the building. Usually is installed away from the room and above of the room door which is to be visible from long distance.

It is used in buildings that the separated in small places (hotel's rooms, hospitals) so as to be controlled easily. Using the FCRI332 we can realized in which room there is an alarm without to open the door of the room. If one room has more than one detector then we can connect the FCRI332 with all the detector's so as the LED will be activated when there is an alarm in one of the detector's

## Intelligent Remote Indicator LED FCRI332

### Architect/Engineer Specifications

### Electrical Specifications

Main Voltage	Connected with the detector
Max. Consumption	10mA
Output	High illumination LED

### Environmental Specifications

Application Temperature Range	0°C to +60°C
Humidity	Up to 95% Relative Humidity (non condensing)

### Mechanical Information

Height	68mm
Width	68mm
Length	35mm
Weight	50gr
Cover Protection	IP20

### Product Range

Compatible Detector	FCO331 Int. Addressable Optical Smoke Detector
	FCOT321 Int. Addressable Multi Optical Smoke / Heat) Detector
	FCHR351 Int. Addressable ROR Thermal Detector
	FCOT321 Int. Addressable 58°C Fixed Thermal Detector
