## Description

Automatic Telephone Dialer is designed to record audio for 16 seconds. It allows 6 telephone numbers. It has power failure protection for records. They could be used in households, Office buildings, hotels, banks, retail stores and many more facilities.

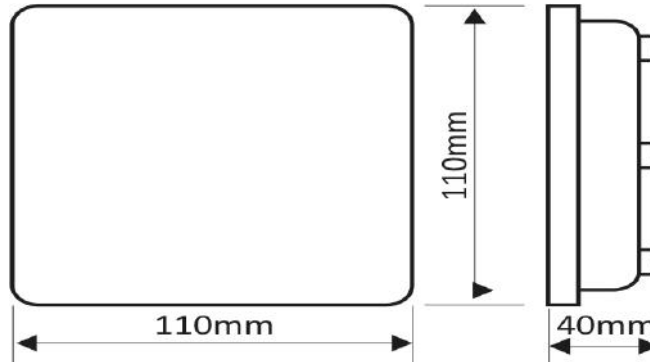

Automatic Telephone Dialer features busy-line and no-answer detection to ensure prompt transmission of up to 2 prerecorded messages delivered sequentially to as many as 6 standard telephones, cellular phone, voice and/or numeric pagers. Messages to both local and long-distance calls can be transmitted. When activated, the dialer instantly begins calling the numbers in sequence, delivering each message 1 to 5 times in a row, in accordance with the pre-selected number of dialing attempts.

Automatic Telephone Dialer is programmable, offering customization to fulfill virtually any residential or business alerting requirement

Automatic Telephone Dialer features Versatile, full-featured, easy to program , keypad door hides keys from curious fingers, Standard RJ-11 telephone Jack with loop through , flash ram for storing recorded voice messages and programming retains even when power goes out, provides reliable emergency notification 24 hours a day.
